SUSAN G. KOMEN® MINNESOTA STATEMENT REGARDING COVID-19

March 13, 2020

Susan G. Komen® Minnesota takes the health and safety of our participants, supporters, volunteers and staff very seriously. As such, we are closely monitoring the news of the novel Coronavirus 2019 (COVID-19) and the current state of cases found in Minnesota and across the U.S.

We will be following currently available guidance from local and national agencies and the best interest of our supporters as we make decisions regarding our Susan G. Komen Twin Cities Race for the Cure® scheduled for Mother's Day, May 10, 2020. This is a fast-developing situation. We are evaluating all possible options and will provide ongoing updates regarding the status of our event. Our top concern is to ensure we have the plans and resources in place to safeguard your health and well-being. Nothing is more important.

Our event is a day where we can all put aside everything else in our lives and share our space, our stories, our laughter, and our tears to raise money that saves lives. Yet we know we’re more than one day, and instead, part of a community of people working for a world without breast cancer. At the end of the day, it’s about what we make possible together.

Please visit our website at www.komenminnesota.org and social media channels for updates.

Thank you so much for your support, understanding, and unwavering dedication to our mission.

Sincerely,

Char and David

Char Plitman, David Egan and the Susan G. Komen Minnesota Team
